# Earth day scavenger hunt

## Ages 5-10

An environment themed scavenger hunt is a great way to get to know your own environment in the backyard. You can play in your backyard or take this game to a park.

### Create a list!

Before you leave the house, create a list of the natural elements commonly found in the area around you. Examples of these could be twigs, blades, leaves, stones, grass, flowers.

### Competition

Make it a competition and time yourself against your friends or member of your whānau to see who can collect more. Whoever collects them all first is the winner of the earth day scavenger hunt.
